

Max Planck FREIBURG

from Criminological
Capacity Building

Partner Group ZAGREB

to Basic Violence
& Cruelty Research

EVENTS

Annual Conferences
Zagreb, Sarajevo, Bucharest,
Budapest, Freiburg

the regional conferences gather expert knowledge from and for the region, while providing a suitable scientific forum for discussing crime and security challenges in the Balkans and related to the EU

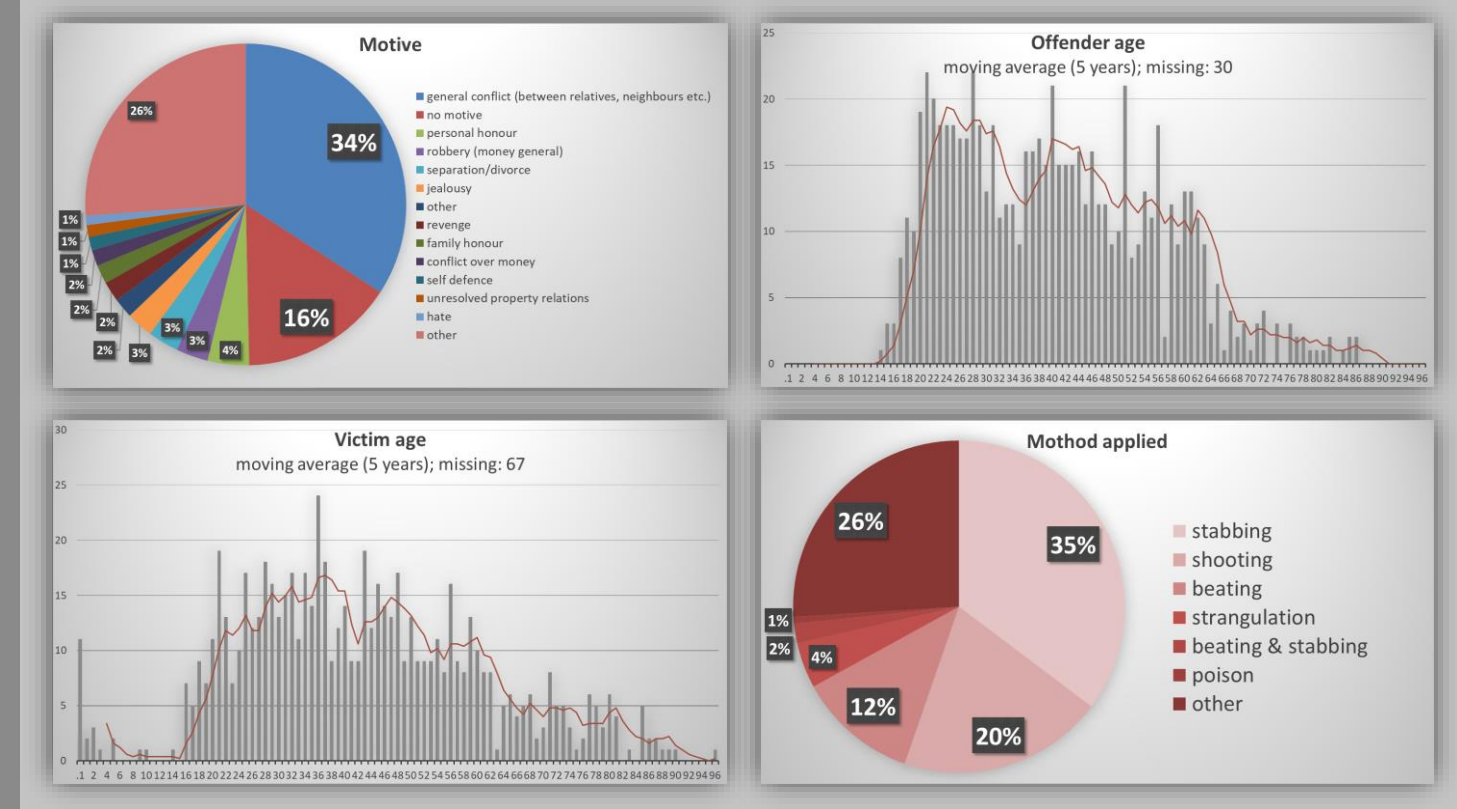

Scientific Workshops

RESEARCH

Balkan Homicide Study

8 Countries ≈ 4.000 Case Analysis

OUTPUTS

Publication Series

Essential Criminology Readers
on Balkan Crime, Victimology...

European Society of Criminology

Working Group & Panels

Balkan Criminology as well as its research and outputs are highly visible at the annual conferences of the ESC: we maintain our own working group, chair 4-8 themed panels and organise a book stand disseminating research findings

PhD Courses

Inter-University Centre Dubrovnik

the one-week intensive course is held each year in October and provides early stage researchers with an opportunity to present own research, gain knowledge and network with colleagues & experts

Balkan Criminology NETWORK

16 Countries and 40 Researchers

Albania, Bosnia and Herzegovina, Bulgaria, Croatia, Germany, Greece, Hungary, Italy, Kosovo, Macedonia, Montenegro, Romania, Serbia, Slovenia, Switzerland and Turkey

Croatian Violence Monitor

Application Oriented Research

a novel study of delinquent violence in Croatia with focus on protecting vulnerable groups of victims; funded with 270.000€ by the Croatian Science Foundation; includes ≈8.000 Case Analysis

Violence & Cruelty Research

**Foundational & Multidisciplinary
Scientific Outlook Beyond 2018**
what is the essence of violence? how can we capture and measure the physics of violence and human suffering? how does a criminological 'Genuine Violence Classification System' relate to teleological normative constructions of violence?
